5. COMMENTARY

Bulls and Bears were fighting for the first day of Feb. At the end of day, Bulls won. Based on daily chart, current wave 3 hasn't completed yet. If today price can breakout 1293.75, this bullish butterfly pattern would be completed around 1312 level. Also tomorrow Job report will be a key. If price can't breakout 1293.75 today or tomorrow, then price would go down as soon as price breaks down 1275 level.

6. TODAY'S TRADING

Based on 60mins chart, there is an inverted H&S pattern. That pattern neckline is 1293.75 level. Breakout 1295.50, ES could make a double top pattern around 1305-1312 range. Today ES could make one more narrow range day to wait for tomorrow job reports
