5. COMMENTARY

ES gaped up at open after CPI report. It struggled with major resistance zone from 1404.50-1409 range all day until last 15 minutes. It made a new high and narrow range day seven (NR7) with little changing at closing price from its open. Today range expansion and a pick up in volatility is likely. Pullback to test 1393-1390 range should be expected.

6. TODAY'S TRADING

Based on 60min chart, ES completed its bullish pattern at 1407.50 level and gets ready for retracement. Today ES could pullback to test 1396.50-95.50 or little further to 1393-1390 range. A-B-C correction pattern should be expected.
